

SUMMARY OF FINAL REGULATORY FLEXIBILITY ANALYSIS

Department of Commerce

CLEARINGHOUSE RULE NO.: 06-031

RULE NO.: Chapter Comm 5

RELATING TO: Licenses, Certifications and Registrations

Final Regulatory Flexibility Analysis Summary

The rules consist of revisions in chapter Comm 5 in order to address some administrative issues that have occurred since the last update of chapter Comm 5. Chapter Comm 5 establishes qualifications and procedures for licensing, certifying and registering various individuals and entities associated with the construction of buildings. The proposed revisions are to reflect recent statutory changes, to clarify the application or intent of certain rules, and to provide consistency across certain related credential types. Most of the credentials under chapter Comm 5 have been established under the statutory authority and mandates of chapters 101 and 145, Stats. The proposed rules should have a minimal effect on small business in that most of the credentials under chapter Comm 5 involve individuals and not businesses.
